Just like the moon everything in life has its own cycle. We as humans wake up every morning, go to work and go to sleep after our whole tiring day. When the moon is out, we're asleep and recovering from the day we've had, this makes the moon a sign of renewal. In addition, we used the flower because it symbolizes happiness, abundance, hope and beauty. The moon and flower reminds us that life maybe a never-ending cycle but always look at the beauty and hope cause at the end of the day, we get the chance to renew ourselves.
