WORLD-CLASS
PRECIOUS METALS
REFINERY

s a m

Chairman's MESSAGE

Based in Dubai, known as the city of gold, SAM Precious Metals ranks among the UAE's top precious metals refineries, with advanced facilities in Dubai and Egypt. We're renowned globally for state-of-the-art refining services, offering products like bars, coins, chemicals, and more.

Our strength lies in our extensive network, bridging the gap between the precious metals producing countries and consuming countries, while always adhering to ethical standards and responsible sourcing.

At SAM Precious Metals, we envision a bright future for precious metals, especially gold and silver, as safe-haven assets. We're committed to sustainable growth, delivering value to our clients, investors, and society, while upholding responsible sourcing and excellence.

We're dedicated to ensuring that our gold and precious metals are sourced responsibly and sustainably. Our certifications cover product quality, management systems, environmental and safety policies, and customer satisfaction. We're a proud member of UAE Good Delivery for Silver and Gold and have been

certified by the Responsible Jewellery Council for Code of Practice (COP) and Chain of Custody (COC).

With operational refineries in Dubai and Egypt, we plan to establish a total of 13 refineries and value-added product facilities over the next decade. Our new Dubai facility, nearly three times the size of our existing branches, will fuel our growth and open by the end of 2023.

At SAM Precious Metals, our mission centers on delivering top-quality products and services. We value customer feedback and aim to be their preferred partner by providing premium services and the highest quality value-added products.

SAMI ABU AHMAD
Chairman
Sam Precious Metals

OUR visiOn

To become the customer's first choice by offering premium services that meet international standards and supplying the best quality value-added products.

To inspire market participants to uphold the international standards and push the boundaries to redefine excellence.

OUR missiOn

- To provide superior value proposition for our customers.
- To operate in accordance with industry best practices to produce the highest-quality products responsibly.
- To provide premium services at an affordable price while following all statutory rules, regulations, and market practice guidelines.
- To increase our competitiveness in the international market by adding value-added products.
- To connect gold and silver producing and consuming countries by developing 13 branches of refineries, hallmark centers, minting houses for fine gold and silver within the next 10 years, offering value-added products worldwide and establishing important joint ventures with related countries.

OUR values

To create the highest standards of growth, governance, safety, sustainability and social responsibility by fostering a culture of innovation, excellence, integrity and trust to provide value for all our stakeholders.

The core values of the company are defined below:

Building Trust : We rely on building trusting relationships to ensure sustainable growth.

Purity : We ensure fineness of our precious metals to meet the highest standards.

Quality : Our gold and silver is tested at qualified testing laboratories and facilities by industry professionals.

Cost : Cost efficient without compromising on quality.

Excellence : We believe in the pursuit of excellence in everything we do.

ACCREDITATIONS & certifications

DUBAI

ISO 10002:2014
- Provides guidance on the process of increasing customer satisfaction and complaints handling related to products within an organization, including planning, design, operation, maintenance and improvement which has been adopted by SAM Precious Metals as part of quality management system.

ISO 9001:2015
- Internationally recognized as the world's leading quality management system, SAM Precious Metals has been independently assessed and certified for its full compliance with this standard's requirements. It ensures that our products and services consistently meet customers' requirements in terms of

product manufacturing, quality and delivery.

ISO 14001:2015 - By completing ISO 14001 certification SAM Precious Metals can assure stakeholders that our environmental management system meets international industry-specific environmental standards.

ISO/IEC 17025:2017 - Certified by International Accreditation Services (IAS), SAM Precious Metals has an international standard testing laboratory with excellent competence, traceability and well maintained impartial process approach to assure the quality of products and testing results.

RESPONSIBLE JEWELLERY COUNCIL

- SAM Precious

Metals has been

recertified by Responsible Jewellery Council (RJC) for Code of Practices (COP) and become an RJC Chain of Custody (COC) Certified Entity. We are the first refinery in the whole of Middle East to become an COC Certified Entity, which we believe demonstrates our efforts and contributions towards responsible sourcing.

ISO 45001:2018

- Specifies requirements for an occupational health and safety (OH&S) management system

and gives guidance for its use. SAM Precious Metals has been independently assessed and is compliant with all the requirements.

CE CERTIFICATION

- SAM Precious Metals showed its commitment to

conform to health, safety and environmental protection standards. The letters "CE" are an abbreviation of French phrase "Conformité Européene" which literally means "European Conformity". SAM Precious Metals has been independently assessed and is compliant with the requirements of Directive 2006/21/EC.

The COP provides a common standard for ethical, social, human rights and environmental practices. COP certification provides a strong system for assuring stakeholders, shareholders, customers and business partners that a company conducts its business responsibly. The COC certification provides a guarantee of the integrity of our products and materials – allowing us to tell the complete story about how they were sourced, traced, and processed, from mine to retail.

UAE GOOD DELIVERY - UAE

Good Delivery (UAEGD) is a standard that provides a framework for the gold sector, in line with

international best practices. SAM Precious Metals has met all membership requirements and is approved under the UAE Good Delivery list for Gold and Silver.

EGYPT

ISO 9001:2015
- Internationally recognized as the world's leading

quality management system, SAM Precious Metals has been independently assessed and certified for its full compliance with this standard's requirements. It ensures that our products and services consistently meet customers' requirements in terms of product manufacturing, quality and delivery.

ISO 14001:2015 - By completing ISO 14001 certification SAM Precious Metals can

assure stakeholders that our environmental management system meets international industry-specific environmental standards.

ISO 45001:2018
- Specifies requirements for an occupational health and safety (OH&S) management system and gives guidance for its use. SAM

Precious Metals has been independently assessed and is compliant with all the requirements.

ISO 10002:2014
- Provides guidance on the process of increasing customer

satisfaction and complaints handling related to products within an organization, including planning, design, operation, maintenance and improvement which has been adopted by SAM Precious Metals as part of quality management system.

CE CERTIFICATION
- SAM Precious Metals showed its commitment to

conform to health, safety and environmental protection standards. The letters "CE" are an abbreviation of French phrase "Conformité Européene" which literally means "European Conformity". SAM Precious Metals has been

independently assessed and is compliant with the requirements of Directive 2008/128/EC.

ISO/IEC 17025:2017 - Certified by International Accreditation Services (IAS), SAM Precious Metals has an international standard testing laboratory with excellent competence, traceability and well maintained impartial process approach to assure the quality of products and testing results.

RESPONSIBLE JEWELLERY COUNCIL - SAM Precious Metals has been

certified by Responsible Jewellery Council (RJC) for Code of Practices (COP)

and Chain of Custody (COC). We are the first and only refinery in Egypt to become an RJC COP and COC Certified Entity, which we believe demonstrates our efforts and contributions towards high operating standards and responsible sourcing.

The COP provides a common standard for ethical, social, human rights and environmental practices. COP certification provides a strong system for assuring stakeholders, shareholders, customers and business partners that a company conducts its business responsibly. The COC certification provides a guarantee of the integrity of our products and materials – allowing us to tell the complete story about how they were sourced, traced, and processed, from mine to retail.

OUR services

SAM Precious Metals specializes in utilising the most advanced chemical processes to refine and evaluate large volumes of gold, silver and other precious metals. The company's facilities are equipped with cutting-edge technology and effective and efficient processes for the recovery of precious metals from scrap and other material.

The company continuously invests in the production capabilities, technical capacity and domain knowledge to ensure that the products and services are of the highest quality. The company's refineries are operated by a team of industry specialists and accomplished professionals.

“ the highest standards of reliability in refining, testing and melting ”

1. REFINING

Using raw material with as little as 10% gold content or 5% silver content (in some cases even lower), SAM Precious Metals guarantee a 100% recovery of gold, silver and other precious metals.

The refining process is carried out at the Company's state-of-the-art facilities and with the team's deep technical knowledge. The refineries are operated by a team of specialists and accomplished professionals. The refining process and the end products produced by SAM Precious Metals are of the highest international standard worldwide.

2. MELTING

SAM Precious Metals has installed specially designed induction melting units that offer a full range of gold and silver melting services that cover the customer requirements. The Company specialises in converting all types of gold good delivery bars, silver good delivery bars, and silver grains to smaller units with differing purity levels.

SAM Precious Metals also produce standard 100gm bars, Kilo bars, and other bars and deliver products of levels up to 995, 999, and 999.9 for gold and up to 999, and 999.9 for silver.

3. TESTING

SAM Precious Metals is considered as one of the most notable assayers of gold and silver in the Middle East Region. In order to offer the highest calibre of gold and silver products, the Assaying Laboratories and quality control department at the SAM Precious Metals facilities provide an end-to-end service.

Gold is tested by the method of combination of the cupellation, ICP machines, advanced X-ray fluorescence spectrometers (XRF), SPARK spectrometers, and other methods to achieve the highest accuracy in testing gold.

For silver, SAM Precious Metals use a combination of the cupellation method, ICP machines, advanced X-ray fluorescence spectrometers (XRF), SPARK spectrometers, and, in addition, titration techniques are applied for testing silver.

4. MINTING

With unique expertise and state-of-the-art minting facilities, SAM Precious Metals can produce standard minted gold and silver bars of purity of 999.9 for gold and 999 or 999.9 for silver.

We produce souvenir of all types of minted bars and coins depending on our customers' requirements. The minting services also customise two dimensional and three dimensional designs.

All SAM Precious Metals products are hallmarked with a trademark for quality assurance. The Company offer speedy turnaround times and the highest standard of quality at a very competitive premium.

5. DIAMOND SEPARATION

SAM Precious Metals offer bespoke diamond and gold separation services. Equipped with a state of the art refining department dedicated to treatment of material and diamond recovery, we offer the highest quality of inspection, transparency and unmatched precision through every step of the process.

Our team specializes in using innovative techniques for diamond and gold separation. Stubborn designs can be worked loose and even the most intricately placed diamonds can be extracted from gold and silver jewelry. Backed by a highly experienced and skilled team, we aim to provide a quick and customised solution that exceeds the customers' expectations.

6. BUYING/SELLING OF GOLD/SILVER

SAM Precious Metals is fully capable of purchasing and selling physical gold and silver products at the most competitive prices. The company offer hedging services for gold and silver for our clients.

7. VALUE ADDED SERVICES

SAM Precious Metals play an important role in enhancing customer's knowledge and impression about the two futuristic goods – gold and silver. The specialists at the company provide training to the staff members of their customers at no cost. The transfer of knowledge and training on the product details enable the customer's staff to gain a detailed understanding about the product and the process which, in turn, helps the customers to follow a robust compliance, due diligence and supply chain management system. In addition, the company also provides value added services to the customers including consultation and assistance with logistics, insurance, and compliance. Kindly make an appointment for the same at compliance@sampreciousmetals.com

Besides precious metals, SAM Precious Metals is also engaged in providing different types of precious chemicals such as Chloroauric Acid and Potassium Gold Chloride to various players in the industry.

For inquiries, please contact at info@sampreciousmetals.com

OUR products

SAM Precious Metals has the capability to produce the highest quality of casted gold and silver bars and grains as well as minted gold and silver bars.

Purity can be customized as per customer requirements.

Rectangle

SAM Logo

The story behind the name Sam is an idea born by Mr. Sami Abu Ahmad as a result of his 2 decades of experience in the precious metals industry. 'Sam' is derived from Sami referring to masculinity, sword, giant and high status. Sam also refers to a tree and symbolizes beauty.

SAM *Horse*

The Horse helps us to remember the beauty of life. We use the Horse because it symbolizes success & determination. It motivates us to move forward, succeed in our ventures and become the best version that we can be. The Horse does not give up easily. They focus on the goal instead of the obstacles. The Horse is all about kicking up their heels, bucking off and seeing the world. When you know what drives you and puts the awareness of your motivations to work, you can get much further and faster than you ever imagined.

SAM
Eagle

Being the supreme winged creature, the eagle's meaning is Power & Resilience. It signifies strength, wisdom & courage. The eagle reminds you that when you live in truth, you have the power to soar higher than you ever imagine. The eagle allows you to view life and yourself from a higher perspective and believe how much more you are capable of.

MOON *Flower*

Just like the moon everything in life has its own cycle. We as humans wake up every morning, go to work and go to sleep after our whole tiring day. When the moon is out, we're asleep and recovering from the day we've had, this makes the moon a sign of renewal. In addition, we used the flower because it symbolizes happiness, abundance, hope and beauty. The moon and flower reminds us that life maybe a never-ending cycle but always look at the beauty and hope cause at the end of the day, we get the chance to renew ourselves.
