OUR MANAGEMENT

CHAIRMAN'S MESSAGE

Headquartered in **Dubai**, SAM Precious Metals ranks among the region's top precious metals refineries, with advanced facilities in UAE and Egypt. We're renowned globally for state-of-the-art refining services, offering products like bars, coins, chemicals, and more.

Our strength lies in our extensive network, bridging the gap between the precious metals producing countries and consuming countries, while always adhering to ethical standards and responsible sourcing.

At SAM Precious Metals, we envision a bright future for precious metals, especially gold and silver, as safe-haven assets. We're committed to sustainable growth, delivering value to our clients, investors, and society, while upholding responsible sourcing and excellence.

We're dedicated to ensuring that our gold and precious metals are sourced responsibly and sustainably.

Our certifications cover product quality, management systems, environmental and safety policies, and customer satisfaction.

We're a proud member of UAE Good Delivery for Silver and Gold and have been certified by the Responsible Jewellery Council for Code of Practice (CoP) and Chain of Custody (CoC).

Our operational refineries in Dubai and Cairo are only the beginning as we plan to establish a total of 13 refineries and value-added product facilities over the next decade in key global locations.

At SAM Precious Metals, our mission centers on delivering top-quality products and services. We value customer feedback and aim to be their preferred partner by providing premium services and the highest quality value-added products.

Sami Abu Ahmad
Chairman
Sam Precious Metals

SAM PRECIOUS METALS

In 2021, we established our strategically located refinery at the heart of Cairo, Egypt. SAM Precious Metals Egypt, with its modern facilities, advanced refining techniques, and internationally certified standards, provides invaluable services to the Egyptian and North African gold and precious metals industry. With the establishment of this branch, we have successfully connected one of the largest gold recycling markets to the GCC region's consumers.

SAM VISION, MISSION & VALUES

SAM VISION

To become the customer's first choice by offering premium services that meet international standards and supplying the best quality value-added products. To inspire market participants to uphold the international standards and push the boundaries to redefine excellence.

SAM MISSION

- To provide superior value proposition for our customers.
- To operate in accordance with industry best practices to produce the highest-quality products, responsibly.
- To provide premium services at an affordable price while following all statutory rules, regulations, and market practice guidelines.
- To increase our competitiveness in the international market by adding value-added products.
- To connect gold and silver producing and consuming countries by developing 13 branches of refineries, hallmark centers, and minting houses for fine gold and silver within the next 10 years, offering value-added products worldwide, thereby establishing important joint ventures with related countries.

SAM VALUES

To create the highest standards of growth, governance, safety, sustainability, and social responsibility by fostering a culture of innovation, excellence, integrity, and trust, providing value for all stakeholders.

The core values of Sam Precious Metals are

- **Building Trust:** We rely on building relationships that can be trusted to ensure sustainable growth.
- **Purity:** We ensure the fineness of our precious metals to meet the highest standards.
- **Quality:** Industry professionals test our gold and silver at qualified testing laboratories and facilities.
- **Cost:** Cost-efficient without compromising on quality.
- **Excellence:** We believe in the pursuit of excellence in everything we do.

ACCREDITATIONS & CERTIFICATIONS

DUBAI

ISO 10002:2014

Provides guidance on the process of increasing customer satisfaction and complaints handling related to products within an organization, including planning, design, operation, maintenance and improvement which has been adopted as part of quality management system.

ISO 9001:2015

Internationally recognized as the world's leading quality management system, SAM Precious Metals has been independently assessed and certified for its full compliance with this standard's requirements. It ensures that our products and services consistently meet customers' requirements in terms of product manufacturing, quality and delivery.

RESPONSIBLE JEWELLERY COUNCIL - Code of Practice (CoP)

SAM Precious Metals has been certified by the Responsible Jewellery Council (RJC) for Code of Practices (CoP). The CoP provides a common standard for ethical, social, human rights, and environmental practices. The CoP certification provides a strong system for assuring stakeholders, shareholders, customers, and business partners that a company conducts its business responsibly.

RESPONSIBLE JEWELLERY COUNCIL - Code of Custody (CoC)

SAM Precious Metals is the first refinery in the entirety of the Middle East to become a Chain of Custody-Certified Entity, which we believe demonstrates our efforts and contributions towards responsible sourcing. The CoC certification provides a guarantee of the integrity of our products and materials - allowing us to tell the complete story about how they were sourced, traced, and processed, from mine to retail.

ISO 14001:2015

By completing ISO 14001, SAM Precious Metals can assure stakeholders that our environmental management system meets international industry-specific environmental standards.

UAE GOOD DELIVERY

UAE Good Delivery (UAEGD) is a standard that provides a framework for the gold sector, in line with international best practices. SAM Precious Metals has met all membership requirements and is approved under the UAE Good Delivery list for Gold and Silver.

ISO/IEC 17025:2017

Certified by International Accreditation Services (IAS), SAM Precious Metals has an international standard testing laboratory with excellent competence, traceability, and well-maintained impartial process approach to assure the quality of products and testing results.

CE CERTIFICATION

SAM Precious Metals showed its commitment to conform to health, safety, and environmental protection standards. SAM Precious Metals has been independently assessed and is compliant with the requirements of Directive 2006/21/EC.

ISO 45001:2018

Specifies requirements for an occupational health and safety (OH&S) management system and gives guidance for its use. SAM Precious Metals has been independently assessed and is compliant with all the requirements.

FAIRMINED STANDARD

SAM Precious Metals understands the importance of responsible artisanal and small-scale mining and is a licensed brand of Fairmined Gold. The Fairmined standard ensures that gold is sourced in a way that respects environmental sustainability and improves the livelihoods of miners and their communities. This certification highlights SAM Precious Metals' dedication to ethical sourcing and contributing positively to the artisanal mining sector.

FAIRTRADE CERTIFICATION

By obtaining Fairtrade Certification, SAM Precious Metals demonstrates its commitment to supporting fair wages and working conditions for miners. This certification guarantees that gold is sourced in a way that respects both human rights and the environment. SAM Precious Metals' Fairtrade-certified products offer consumers the assurance that their purchases contribute to fair and ethical trading practices.

EGYPT

OUR SERVICES

SAM Precious Metals specializes in utilizing the most advanced chemical processes to refine and evaluate large volumes of gold, silver, and other precious metals. Our refineries' facilities are equipped with cutting-edge technology and have effective and efficient processes in place for the recovery of precious metals from recycled, mining and other material.

SAM Precious Metals continuously invests in the production capabilities, technical capacity, and domain knowledge to ensure that the products and services offered are of the highest quality. SAM's refineries are operated by a team of industry specialists and accomplished professionals.

1. REFINING

Using raw materials with as little as 10% gold content or 5% silver content – even lower in some cases – SAM Precious Metals guarantees a 100% recovery of gold, silver, and other precious metals.

The refining process is carried out at SAM's state-of-the-art facilities with the team's deep technical knowledge. The refineries are operated by a team of specialists and highly experienced and accomplished professionals. The refining process and the end-products produced by SAM Precious Metals are of the highest international standards, worldwide.

2. MELTING

SAM Precious Metals has installed specially designed induction melting units that offer a full range of gold and silver melting services, covering all customer requirements. SAM specializes in converting all types of gold Good Delivery bars, silver Good Delivery bars, and silver grains to smaller units with differing purity levels.

SAM Precious Metals also produces standard 100gm bars, Kilo bars, large bars, Grains and other bars and deliver products of levels up to 995, 999, and 999.9 for gold and up to 999, and 999.9 for silver.

3. TESTING

SAM Precious Metals is considered to be one of the most notable assayers of gold and silver in the Middle East region. In order to offer the highest caliber of gold and silver products, the assaying laboratories and quality control department at the SAM Precious Metals facilities provide an end-to-end service. Gold is tested by the method of combination of the cupellation, ICP machines, advanced X-ray fluorescence spectrometers (XRF), SPARK spectrometers, and other methods to achieve the highest accuracy in testing gold. For silver, SAM Precious Metals use a combination of the cupellation method, ICP machines, advanced X-ray fluorescence spectrometers (XRF), SPARK spectrometers. Additionally, titration techniques are applied for testing silver.

4. MINTING

With unique expertise and state-of-the-art minting facilities, SAM Precious Metals can produce standard minted gold and silver bars of purity of 999.9. For gold, 999 or 999.9 for silver and 999.5 or 999.9 for platinum. We produce souvenirs of all types of minted bars and coins depending on our clients' requirements. Our minting services also customize two-dimensional and three-dimensional designs. All SAM Precious Metals products are hallmarked with a trademark for quality assurance and track back to the sourced material. SAM offers speedy turnaround times and the highest standard of quality at a very competitive premium.

5. DIAMOND SEPARATION

SAM Precious Metals offers bespoke diamond and gold separation services. Equipped with a sophisticated refining department dedicated to treatment of material and diamond recovery, we offer the highest quality of inspection, transparency, and unmatched precision through every step of the process. Our team specializes in using innovative techniques for diamond and gold separation. Stubborn designs can be worked loose and even the most intricately placed diamonds can be extracted from gold and silver jewelry. Backed by a highly experienced and skilled team, we aim to provide a quick and customized solution that exceeds the clients' expectations.

6. BUYING/SELLING OF GOLD/SILVER

SAM Precious Metals is fully capable of purchasing and selling physical gold and silver products at the most competitive prices. The company offers hedging services for gold and silver for its clients.

7. VALUE-ADDED SERVICES

SAM Precious Metals plays an important role in enhancing clients' knowledge and impression about two timeless goods: gold and silver. The specialists at SAM provide training to clients' staff members at no cost. The transfer of knowledge and training on the product details enables customers' staff to gain a detailed understanding about the product and the process which, in turn, helps the customers to follow a robust compliance, due diligence, and supply chain management system. In addition, SAM also provides value-added services to clients, including consultation and assistance with logistics, insurance, and compliance. Besides precious metals, SAM Precious Metals is also engaged in providing different types of precious chemicals such as Chloroauric Acid and Potassium Gold Chloride to various players in the industry.

In addition, SAM Precious Metals has launched SAM Training Center, a non-profit educational center dedicated to advancing knowledge and expertise in the precious metals industry. Located in Dubai, UAE, and the first-of-its-kind in the region, our training center offers a comprehensive range of courses designed to equip industry professionals with the latest skills, insights, and standards. Our core values of trust, sustainability, and responsibility drive our commitment to providing high-quality education. With expert instructors and cutting-edge facilities, SAM Training Center aims to set new standards in industry training and development.

For more information, please visit our website www.samtrainingcenter.com

8. DIE MAKING

At SAM Precious Metals, we strive to make every coin a work of art. We take pride in crafting our dies in-house at the hands of highly skilled engineers, ensuring our minted bars are produced with exceptional precision and consistency.

9. SPECIAL REFINING SERVICES

SAM Precious Metals considers clients as our partners. Subsequently, we provide services and technical solutions for materials that are considered outside the limits of the technical standards agreed upon in the refining and testing stages. We dedicate ourselves to being a one-stop station for our clients.

10. ROCK LAB

SAM Precious Metals has taken upon itself the task of linking the producer to the consumer and providing services that help all of our clients to improve their production and quality. Due to Dubai's location and ease of providing logistical support, SAM Precious Metals launched the rock lab project to be at the service of large-scale mining companies that face problems in sending samples to distant laboratories for analysis. The rock lab is equipped to analyze all types of mining samples (Core, Soil and Chip Samples). The lab operates with experts in rock sample analysis and has received the high standards of accreditations.

Rock Lab Offering:

- Fire Assay Gravimetric Analysis: The method determines the percentage of gold in the samples of Core, Solid, and Chip Samples.
- Atomic Absorption Flame: A spectroscopy analysis method that enables the analysis of many elements in the sample.

SERIES 1

SAM Precious Metals excels at producing the highest quality of casted gold and silver bars, grains, as well as minted gold and silver bars. Purity can be customized as per customer requirements.

SAM LOGO

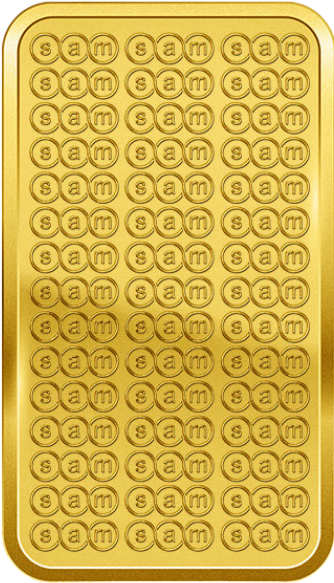

The story behind the name **Sam** is an idea born by **Mr. Sami Abu Ahmad** as a result of his 2 decades of experience in the precious metals industry. 'Sam' is derived from Sami, referring to masculinity, sword, giant, and high status. Sam also refers to a tree and symbolizes beauty.

SAM HORSE

The horse helps us remember the beauty of life. To us, the horse symbolizes success and determination, motivating us to move forward in our ventures and become the best version that we can be. The horse does not give up easily and focuses on the goal instead of its obstacles. The horse is all about kicking up its heels, bucking off, and exploring the world. When you know what drives and motivates you to work, you can get much further, much faster than you ever imagined.

SAM EAGLE

Being the supreme winged creature, the eagle stands for power and resilience, signifying strength, wisdom, and courage. The eagle reminds you that when you live in truth, you have the power to soar higher than you ever thought possible. The eagle allows you to view life and yourself from a higher perspective, letting you see the bigger picture and how much more you are capable of.

MOON FLOWER

Just like the moon, everything in life has its own cycle. The moon rises as the day ends for us and we begin our recovery from it, making the moon a sign of renewal. The combination of flowers with the moon is a symbol of happiness, abundance, hope, and beauty. The Moon Flower reminds us that while life is a cycle that turns and returns, it is important to look at the beauty and hope it carries as we get the chance to renew ourselves the following day.

COMMON MARKS

Al-Aqsa Mosque

Al-Aqsa Mosque is also known as the "Farthest Mosque" located in the ancient city of Jerusalem. Al-Aqsa Mosque is the third holiest place in Islam. Modern Muslims believe that Prophet Muhammad (PBUH) was transported from the greatest mosque of Mecca to this location during the night journey.

Makkah

Makkah is "the fountain head and cradle of Islam". It's Islam's holiest city, as it is the birthplace of Prophet Muhammad (PBUH) and the faith itself.

Qur'an

The Qur'an contains Islam's holy text, offering divine guidance to Muslims. It comprises verbal revelations to Prophet Muhammad (PBUH) over 23 years, encompassing laws, social codes, and a religious philosophy. It also holds great literary value, profoundly shaping the Arabic language.
